on Safety and Education in Laboratory

ACSEL 2021 at GOING VIRTUAL

The 8th Asian Conference on Safety and Education in Laboratory

January 10-15, 2022

“Growing Together with Safety and Research Activities”

Co-organized by

The Academic Consociation of
Environmental Safety and Waste Management, Japan

THE UNIVERSITY OF TOKYO

Cooperated by

私立大学環境保全協議会
Environmental Protection Association of Private Universities

Supported by

文部科学省

Japan. Meetings & Events
New ideas start here

Special session

Society's awareness of risk has clearly increased in the past decade such as natural disasters, covid-19 and so on. However, it should be as simple as avoiding a hazard and accidents. Pandemics have forced students and researchers to go online. The missions of universities are both to promote research activities and to develop human resources, including humanistic personality development. This year, we are going to discuss how education and research activities should be carried out in the new normal from the perspective of environmental safety.

Prof. Yoshito Oshima
